What you'll get ...

A great entertaining, educational and professional cartoon style Megillah video using your students/members' faces as the actors in the Purim story. There are captions explaining each of the 60 images coming in various play time length options.

This will be prepared as a ready- to-go ANIMATED video mpeg file for you to download. (or other format of your choice)

You can also get ...

A matching colorful Bingo game pdf. NEW AND IMPROVED 50 different Bingo cards for you to print. The photos will be of the same poses of the as the video; the faces will differ. *Bingo cards make the video even more effective with its silent entertaining game.*

What you send in....

Hang up a colored backdrop (oak tag - preferably , green or light blue. as shown below) It is important that the background is not a color that can be confused with hair color or skin color. Do not use fluorescent colors. Make sure the lighting is adequate. Take a few snapshots so that you can have options. It's as simple as telling the child to either smile at the camera or show a serious face.

Only the face is necessary in the picture, but that does not mean the photographer should zoom up on the face, quite to the contrary it would be best if the chest is in photo as well.

Costumes are not necessary.

It's best that the child remove glasses, hoods, scarves, large collars, etc.

It is okay if the same child poses as different Purim personalities.

It is a very simple picture taking process like never before!
