## The Customized animated Purim Slide Show

### What you'll get ...

A great entertaining, educational and professional Megillah slide show using your students/members' faces as the actors in the Purim story. There are captions for each of the 64 slides. This will be prepared as a ready- to-go ANIMATED PowerPoint presentation.

### You can also get ...

A colorful Bingo game. NEW AND IMPROVED You can print out 50 different Bingo cards. The photos will be of the same poses of the as the Slide-show; the ***faces will differ***. *Bingo cards make the slide show an entertaining silent game.*

---

## It is a very simple picture taking process like never before!

The accompanying checklist includes a picture ID and a brief description if the actor, the only details one needs to take note of is if it should be a boy or a girl or if there should be a happy face or a serious one. It's that simple.

### Prepare the background

**Required** Hang up a colored backdrop (oak tag - preferably , green or light blue. as shown below) It is important that the background is not a color that can be confused with hair color or skin color. Do not use Fluorescent colors. Make sure the lighting is adequate.

### Taking the pictures

---

Take a few snapshots so that you can have options. It's as simple as telling the child to either smile at the camera or show a serious face. Only the face is necessary in the picture, but that does not mean the photographer should zoom up on the face, quite to the contrary.

[Costumes are not necessary.](#)

[It's best that you ask the children to remove glasses, hoods, scarves, large collars, etc.](#)

It is okay if the same child poses as different Purim personalities.

Remember to avoid shadows when taking the photos. Don't have "actor" too close to wall!

## After Taking the Pictures

---

Review the pictures that you are sending to make sure that:

- ◇ You include one picture for each pose required. There are several slides that aren't shown, because those are generic slides with Haman, etc.
- ◇ You are happy with the pictures you end up sending for production.

Rename the pictures to match the numbers on the checklist. (Right click the photo, select "rename" and rename the picture.) i.e. #17 (no need for description or name) on the pictures where there are more than one child, rename the photos 2a 2b etc.

Confirm that slide numbers match the checklist.

Send the photos and a check to the address' below.

Once the slide show is completed it will be emailed to you via [www.yousendit.com](http://www.yousendit.com)

Test the slide show as soon as you get it to make sure that all is correct. Be very careful not to move around any part of the PowerPoint slide show, for every photo in the slideshow is positioned precisely where it needs to be....
